

FIRE STANDARD

- Written fire escape plan
- Well marked exits (or non exits)
- Diagram of escape plan posted
- Adequate fire extinguishers
 - Tagged and checked annually AND monthly
- Alarm system
- Have a fire drill
- Train staff on fire safety

ELECTRICAL SAFETY

- Have electrical safety plan in place
- Perform periodic checks for electrical safety
- Know where your circuit breaker is
- Train staff on electrical safety

Electrical fires are the #1 cause of fires in medical facilities

GENERAL SAFETY

- General policies for “common sense safety”! Examples
 - closing file cabinet draws
 - no boxes in hall ways
- Safety while in office and exiting office
 - e.g. When alone in office or well lit parking lot
- First aid training (not an OSHA regulation)
- CPR training (not an OSHA regulation)
